*Statement of Minister of Public Works regarding inconveniences caused to the members.*

† SRI H. M. CHANNABASAPPA :—(Minister for Public Works and Electricity) : Madam Speaker, it has been painful to me very greatly to hear of the inconveniences caused to hon. members of this House on account of shortage of water supply during the past 3 to 4 days. I do concede that several factors have contributed to this. It is the earnest desire of the Government that every member of this House, whether on this Side or that Side, shall be well placed and looked after not only during the course of the Sessions, but also during other periods when they will have to do the functions of a legislator. That is why Government created several facilities for the members of the House so that they could effectively and efficiently discharge the functions and duties cast on them as legislators irrespective of the fact to what Party they belong.

In regard to the shortage of water supply, whatever may be the reasons, the reasons may be justified, but still the inconvenience is there. I do express my heart-felt regret on that account, and that reason as I understand is, at some stage during the course of 2 or 3 days there was power failure and the water tank got depleted, and this tank is low-level tank and the capacity is limited. It did not come to my notice immediately after it was depleted. I think it is due to the kindness of the hon. members that they did not ring me up as I was a little unwell. The difficulty is this. This General Hostel is not designed to house legislators, and if it were so permanent arrangements could have been made to provide necessary facilities. I concede that the conveniences that have been provided in the General Hostel are far from satisfactory, particularly from the point of view of legislators. Because we are lacking another building suitably designed for housing legislators, we are forced to convert this General Hostel to house legislators. Apart from the inconvenience of accommodation, the various other conveniences required normally for the legislators are also lacking there. This Hostel is in possession of the Public Works Department, and only during the course of the Sessions it will be converted into legislators' home. Government are anxious to see that adequate accommodation and conveniences are provided for all legislators by constructing another Legislators' Home so that all members of the Legislature could be treated equally and equitably and all conveniences provided. And there has been some difficulty in that direction which I will explain to you shortly. Secondly about accommodation and conveniences also. About the Telephones also there have been a lot of difficulties about the telephones. This is not a complaint of today; even while I was on the other side of this House, I was also feeling the same kind of difficulty. Even in regard to inconveniences of food supplied and services, there have been some difficulties which are inherent with the system we are having. There is no question of blaming anybody and these things will have to be looked into both by the Hon. Speaker and also the Government. so far as the Government is concerned, we are examining the possibilities

of putting up another building, preferably within the compound of the Legislators' Home itself so that all the members of this House could be comfortably housed and their conveniences looked after. I will have a discussion with the Hon. Speaker and all others concerned and the Chief Minister and I will see that something is done in that direction quickly and expeditiously.

In regard to the food that is being supplied both in the Legislators' Home and also in the General Hostel. I quite concede that most of the members are not satisfied. I know there might be few who would like it, but most of the members are not satisfied with the type of food they are having and the arrangements that are made. That is not because of lack of understanding either on the part of the Speaker or on the part of the Government. The Hon. Speaker was at one time inclined to leave the management with the PWD so that there might be one agency to look to both food arrangement and accommodation arrangement, water supply, electricity, telephone and all that, but unfortunately I learn that while the Speaker was willing to concede for one agency, but when the note went to the House Committee, that Committee, I am told was not in favour of handing it over to the PWD for management and administration. On account of this difference of opinion, action has not been taken so far. On the other hand, I should plead that the Hon. Speaker was very anxious to see that all the members of the House are well placed, well housed and well-fed during the course of the sessions, and make another effort to have a discussion with the House Committee and see how best the Legislature Department maintains it or the Government maintains it.

ಶ್ರೀ ಕೋಣಂದೂರು ಲಿಂಗಪ್ಪ.—ಅದಕ್ಕಾಗಿ ನಾವು ಜನರಲ್ ಹಾಸ್ಟಲ್‌ನ್ನು ನಮ್ಮ ಲೆಜಿಸ್ಲೇಟರ್ಸ್ ಸೆಕ್ರೆಟೇರಿಯಟ್‌ನ ಆಡಳಿತಕ್ಕೆ ಕೊಟ್ಟರೆ ಅನುಕೂಲವಾಗುತ್ತದೆ ಎಂದು ಹೇಳಿದವು. ಆದರೆ ಈಗ ಹೇಳುತ್ತಿರುವುದೇನೋ ನಮಗೆ ತುಂಬಾ ಸಂತೋಷವಾಗುತ್ತದೆ.

Sri H. M. CHANNABASAPPA.—I have absolutely no objection I am only making out a case that the building was not designed to house the members of the Legislature. The place that is available is not fitted with water supply, electricity and various other things. It is only this time that we are having telephone connection from room to room. Formerly, every member had to run to the central place to avail of the telephone facility. Therefore if it is made a permanent Legislator's Home, then we can make alterations in such a way as to suit the needs of the legislators. If it is the opinion of the House that the building may be handed over to the Legislature for being maintained, I personally would not like to come in the way. Anyway it is not designed for that purpose and that is why we wanted to have a building near this Assembly within the compound of the Legislators' Home itself. Behind the Legislators' Home there is a lot of space where we can put up another building of the same size as we are having today. This aspect will be looked into with the speed that it demands and with a sense of urgency it demands.

(SRI. H. M. CHANNABSAPPA)

With regard to supply and services also, I know a lot of inconvenience has caused to the members. I feel sorry and I express my regret for what has happened and I will certainly see that such things do not occur.

In regard to food arrangements, there has also been some difficulty. In my opinion I am expressing my personal opinion, the standard of supply and services must be of the highest order in the Legislators' Home. We must not allow the Legislators' Home to become a public hotel. The members must be supplied with good at the time they require and at the place they want expeditiously so that their health and time might be well looked after and how exactly it has to be done is again a matter because different types of food are required by different sections and even for that we can make arrangements. Now the present system that is going over a number of years is the contract system. These contractors do not come forward because unless it is converted into a public hotel, it does not pay them. And so far as we are concerned, we are interested only during the sessions of the Legislature. The service and supplies must be made very satisfactorily and the whole atmosphere must create an impression it is a Legislators' Home with the sanctity that it demands. With regard to that, I will have a further discussion with the Hon. Speaker and we will evolve a method by which we can meet the requirements of the members of the Legislature.

So far as supplies and services and accommodation for the members of the Legislature are concerned, I do not think it would be desirable to discuss it further. Government will discuss with the Hon. Speaker and will take note of every feeling that has been expressed by Hon. Members of this House whether it is on this side or that side, and see how best it could be set right.

In regard to the officers not conducting themselves, properly when members of the Houses of Legislature approach them in connection with some work, I may inform the House that circular instructions will be issued to all the officers to give priority consideration when members of the Legislature go to see them and have discussion with them and try to explain them the position and also apprise the rules and regulations in that behalf and try to give them as much satisfaction as is possible. It would not be correct if any officer treats the members of the Legislature whether of this House or of the Upper House or even the Members of Parliament, with scant courtesy and we will see that circular instructions are issued to all officers to give due care in this regard.

In regard to the programmes of the Ministers which came in for comments, I will make it very clear, Government does not desire to make any distinction between a legislator and a legislator; everyone of us is a representative of the people and speaking personally, I regard the members of the Opposition with a greater sense of love because they try to correct us by offering constructive criticisms. That is the reason behind it. While the members of this House on this side support us, the members of the opposition correct us so that we do not commit any mistake. If I speak the truth, my hon. friends will say that I am a very intelligent person. I am not a lawyer in my life. But facts remain that it is the duty of the opposition to lay hands on every one of the mistake of the administration and thereby help the administration to correct itself and become more efficient and more useful to the country. Therefore I for one, always welcome the members of the opposition to point out more and more mistakes so that we may not commit mistakes. There is no point in saying that Government would like to belittle in any manner whatsoever any member of this House whether on this side or that side. In regard to programmes, I would like to make this point clear: it is not the intention of Government to bypass any member of this House or even of the Upper House and the members of parliament also because everyone of us are representatives of the people and if by your persuasion and your trying to show the faults, to that extent we stand corrected and become efficient. Therefore we will always welcome the criticisms particularly trying to put us on the right path where we are actually on the wrong path. But generally we will not be on the wrong path.

But, generally, we do not go on the wrong path. If, per chance, there is any occasion of that kind, it is your duty to put the Government on the right path and it is our duty to correct ourselves. With this kind of understanding, it is best that the two Houses of Legislature—the lower House and the upper House—, and all hon. Members should function to the good of the country.

11-00 AM.

And, in regard to the programmes, certain observation was made. But, so far as programmes are concerned, I am sure adequate arrangements have been made to send copies to all Members of the Assembly, particularly to those Members who come from those Constituencies. If, per chance, any programme is arranged for any inspection or some such kind of thing on an urgent basis, a Member may get the information very late. Well, probably, such cases will be very few and practically, I wish that they are not going to be there at all. And the hon. Leader of the Opposition raised a point in regard to my tour programme to Heggadadevanakote. I want to make it very clear. The hon. Members of this House, whether on this side or on that side, know me well, because I have

(SRI H. M. CHANNABASAPPA)

been in the House of Legislature for quite a long time. I did put a programme and I am sure the hon. Member concerned must have received the programme. All of a sudden, I fell ill one day, and I thought of cancelling the programme. So, I told my P. A. 'Cancel the programme. I am not well. I do not want to go.' The Member was also informed. In the meantime, it was a Public School or College Opening or some such thing—, they got the invitations printed and all that kind of a thing. So, I said: 'Alright, you keep only one day's programme and intimate the programme'. I do not think there is anything wrong in this and there is absolutely no hiding in this. I would like to assure the hon. Members of the House that it shall be our endeavour to take everybody together, to create a greater sense of satisfaction amongst the public at large and do the best possible service, during the course of the five years in which the hon. Members on this side or on that side, will continue as Legislators.
